What happens when your healthcare analytics experts leave?

Their knowledge can leave with them.

This paper identifies a “triple threat” behind institutional amnesia—and proposes a 3-pillar framework to make analytics knowledge more durable.

Think you know peer review?

Maybe not.

For Peer Review Week, we're busting 3 myths from “reviewers just want to reject papers” to “preprints are already peer reviewed.”

Read our latest blog: Demystifying Peer Review: 3 Things You Should Know -
