Support

1. UPLOAD FIGURES (SEPARATELY, JPG, PNG OR GIF)

Upload high-quality figures as image (PNG/JPG) files. For manuscripts discussing electronic systems or interventions we usually require 1-2 screenshots of the game/system as figure. Also, upload an "illustrative" figure or photo to be used for our homepage and the table-of-contents (we call this a "TOC image").

Figures

File	Date	Action	Thumbnail

Change to Figure Number:

1

Update

Figure 1. Human-in-the-Loop Knowledge Governance (HITL-KG) Architecture. A Clinical User submits a natural language query (step 1) to a Conversational AI with NLP Engine and SQL Generation, which generates SQL and queries the Healthcare Data Warehouse (steps 2-3). The system then presents its logic to an Expert Validation decision point (step 4), which either confirms and delivers insights back to the user (steps 5-6) or loops back for correction. On confirmation, the validated query triple is stored in Organizational Memory (step 7, dashed line), which both informs future queries and curates the Knowledge Base of ontologies and best

[best practices evolve
as new knowledge is
validated rather than
remaining static.](#)

Change to Figure Number:

2

Update

[Figure 2. Six-step
Validated Query Cycle
for Human-in-the-Loop
Knowledge
Governance. Step 1
\(Query\): analyst asks
a natural language
question. Step 2
\(Generation\): system
generates candidate
SQL. Step 3
\(Validation\): AI
explains SQL logic
and results; analyst
confirms intent. If
incorrect, the cycle
loops back to
Generation. If correct,
Step 4 \(Storage\):
validated triple is
stored in
organizational
memory. Step 5
\(Retrieval\): future
queries match against
validated triples. Step
6 \(Persistence\):
knowledge survives
staff turnover, and
new analysts reuse
validated queries.
Dashed arrows
connect the cycle to
three outcome pillars:
Storage advances
Analytics Maturity,
Persistence stabilizes
Workforce Agility, and
Retrieval increases

NEW FIGURE

- allowed file extension(s): .png
- max file size for .png is 5MB
- max dimensions (width x height) for .png is 1200 x 1200 pixels

No file chosen

Note: File will upload automatically after you chose one from your hard drive

Please choose file with .png format only

2. UPLOAD MULTIMEDIA APPENDICES (TO BE PUBLISHED)

Multimedia Appendices can be questionnaires, datasets, videos/screencasts, Powerpoint or PDF files showing multiple screenshots (please also use 1-2 screenshots as figures in the paper), files containing the source code of a computer program, informed consent documents. For protocols/proposals intended for JMIR Res Protoc also upload review reports from the funding agencies if available.

Multimedia Appendices

File	Date	Action	Thumbnail
1. Multimedia Appendix 1. Validated Query Triple examples illustrating the Human-in-the-Loop Knowledge Governance (HITL-KG) knowledge capture artifact. Each triple comprises a natural language intent, executable SQL, and rationale metadata for three clinical analytics scenarios: diabetes care monitoring, heart failure readmission cohort identification, and quality	2026- 06-15	Edit Delete Change to Appendix Number: 1 Update	

NEW APPENDIX

- allowed file extension(s): .png, .mov, .mp4, .avi, .txt, .doc, .docx, .xls, .xlsx, .ppt, .pptx, .zip, .rar, .7z, .pdf
- max file size for .png is 5MB
- max file size for .mov, .mp4, .avi is 200MB
- max file size for .txt, .doc, .docx, .xls, .xlsx, .ppt, .pptx, .zip, .rar, .7z, .pdf is 255MB

No file chosen

Note: File will upload automatically after you chose one from your hard drive

Please choose file with .png, .mov, .mp4, .avi, .txt, .doc, .docx, .xls, .xlsx, .ppt, .pptx, .zip, .rar, .7z, .pdf format only

3. UPLOAD ADDITIONAL MATERIAL (FOR EDITORS/REVIEWERS' EYES ONLY)

We recommend to upload a tracked-changes version, and also the responses to the reviewers, as additional file. Also, upload potentially overlapping material submitted or published in other journals (make sure to outline in your notification to the editor how this paper is different, and why "salami-slicing" into multiple publications is justifiable). CONSORT (for RCTs only), PRISMA (systematic reviews) and other reporting checklists should also be supplied, if available.

TOC/Feature image for homepage

File	Date	Action	Thumbnail
------	------	--------	-----------

No TOC/Feature image for homepage uploaded.

NEW SUPPLEMENTARY FILE

- allowed file extension(s): .png, .doc, .docx, .xls, .xlsx, .ppt, .pptx, .pdf, .txt, .zip, .rar, .7z, .mov, .mp4, .avi
- max file size for .png, .doc, .docx, .xls, .xlsx, .ppt, .pptx, .pdf, .txt, .zip, .rar, .7z, .mov, .mp4, .avi is 255MB

Change Due Date

The deadline may be extended one time only, and by a maximum of 6 weeks.

I will submit a revised manuscript by

Save New Due Date

New Author Version

Please complete both steps to submit a new manuscript version.

A. Upload Manuscript

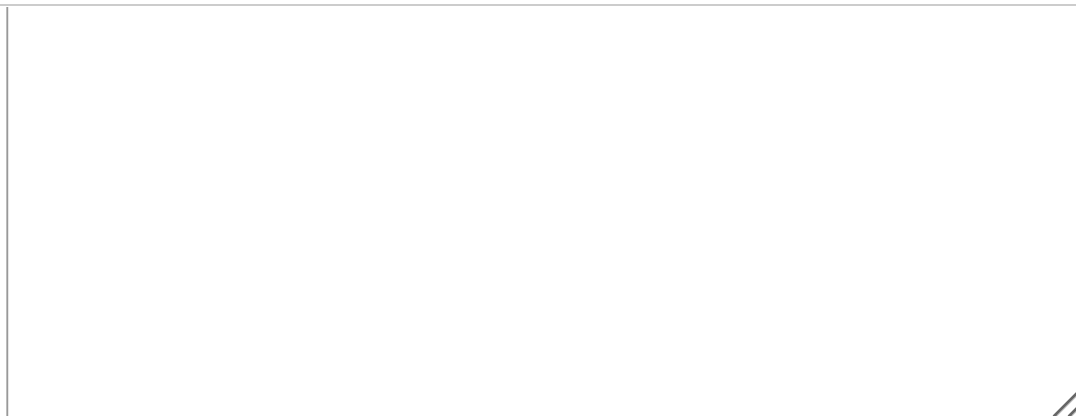

Choose File paper.docx

Upload complete! File: 96541-1490885-1-ED.docx

✓ **Current file:** [96541-1490885-1-ED.docx](#) (Just now)

Upload a new file above to replace the current one

B. Respond to editorial and peer review comments

You will be copied on this notification to the editor

C. Journal transfer options

Below are the journal transfer suggestions from reviewers and/or editors of your paper. Please rank each journal in order of preference, with '1' being your first choice. The Editor-in-Chief of each journal will be approached to approve the transfer in the order of your stated preference.

There are no journal transfer options available.

D. Please make any required changes based on editor feedback.

☐ **Structured (Preferred)**

Use for original paper, systematic review or consensus paper. **Maximum 450 words**

☐ **Unstructured**

Use for proposals, comments, tutorials, reviews, etc. **Maximum 500 words**

Unstructured *

Keywords

Choose terms that best describe the submission's content following the categories used by the journal. Maximum 10 keywords.

Separate terms with a semi-colon (term1; term2; term3).

institutional amnesia ; medical informatics ; socio-technical systems ; query governance ; na

Submit
